

# Penny Plate

	
NAME	DATE

**Materials** 10 pennies, plate

**Players** 2

**Skill** Find pairs of numbers that add to 10.

**Object of the Game** To get 5 points

## Directions

① Player 1:

- Turns the plate upside down.
- Hides some of the pennies under the plate.
- Puts the remaining pennies on top of the plate.

② Player 2:

- Counts the pennies on top of the plate.
- Figures out how many pennies are hidden under the plate.

③ If the number is correct, Player 2 gets a point.

④ Players trade roles and repeat Steps 1 and 2.

⑤ Each player keeps a tally of his or her points.  
The first player to get 5 points is the winner.

---

## Another Way to Play

Use a different number of pennies.

# Ten Frame
